Experience

Tutor	Oct 2021 – May 2022
LWTC Digital Media/ Multimedia Design Career Program	
<ul style="list-style-type: none">• Aided students in developing static sites using HTML and CSS• Worked alongside the professor in educating students about essential concepts in HTML and CSS• Instructed students on how to create responsive layouts with CSS Flexbox and CSS Grid• Enabled students to turn their website mockups into functional sites	

Projects

- [Billing System](#)** C# | Windows Forms | .NET | MySQL
- A native desktop application where users can log in and manage orders, products, customers, and users
 - Interfaces with a MySQL database through a custom class that made it easier to execute raw SQL commands from each form
- [E-Commerce Site](#)** HTML | CSS | JavaScript | jQuery | Bootstrap
- An online shopping site where users can purchase art
 - Users can add items to their cart but must be signed in to save them
 - Only admin users can manage the products shown on the site
- [Book Store Management Site](#)** Vue | Express | MySQL | TypeScript
- A web application where users can manage books, customers, and loans in a book store
 - An Express REST API handled CRUD operations and utilized Multer as a middleware to handle image uploads from the client
- [Clinic Management Site](#)** SvelteKit | MongoDB
- A management site for a clinic where users must log in to manage patients, doctors, appointments, and users
 - Created REST endpoints with SvelteKit to handle creating, reading, updating, and deleting resources in a MongoDB database
- [Astra](#)** React | Firebase
- A single-page application where users can log in with their Google Accounts to access a live chatroom
 - Developed custom react hooks to handle user authentication and querying and subscribing to data from Firebase collections
